

MOHD FAIZ KHAN

Software Engineer | Python/Django | Full-Stack Developer

Dubai, UAE (Baniyas Square) | +971 589739225 | faizkhanofficial32@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Motivated Software Engineer (ready to relocate to Dubai), specialized in Python, AI integration, full stack development, REST APIs, automation, and building efficient, production-ready web solutions. Deliver end to end ownership of scalable code and AI features, including payment systems and analytics, with a focus on debugging and optimization to contribute to team goals with minimal ramp up period.

Availability: Immediate joiner – Ready to start from day one

SKILLS

Languages: Python (AI/ML), JavaScript, HTML, CSS.

Frameworks: Django, Django Channels, Bootstrap.

APIs & Backend: REST APIs, WebSocket, Stripe API,

Databases: PostgreSQL, SQLite, MongoDB.

Automation & Scraping: Selenium, BeautifulSoup.

Tools: Git, AWS Lambda, AI Concepts, Testing.

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER | RAFTAL TECHNOLOGIES, LUCKNOW – JUNE 2025 – DECEMBER 2025

- Develop and maintain full stack applications using Django, JavaScript, and Python, improving application performance, AI features, and user engagement.
- Build cross platform desktop applications with Python (Tkinter, PyQt) and integrate AI logic.
- Mentor junior developers through code reviews and technical logic, fostering a collaborative team environment.

ASSISTANT SOFTWARE ENGINEER | RAFTAL TECHNOLOGIES, LUCKNOW – JULY 2024 – JUNE 2025

- Designed and maintained Python web apps, improving UI responsiveness by 35% and optimizing backend load time for user.
- Automated workflows using Python and Selenium, reducing effort by 40% while debugging and increasing operational efficiency
- Collaborated in Agile sprints to deliver features aligned with AI features and business objectives.

JUNIOR DEVELOPER INTERN | RAFTAL TECHNOLOGIES, LUCKNOW – JANUARY 2024 – JULY 2024

- Developed backend services using Python and Django; built responsive front-end components with HTML/CSS
 - Created web automation scripts using Selenium for testing and data extraction, improving QA cycle time
-

PROJECTS

E-Commerce Platform with Real-Time Chat | Django, Django Channels, WebSocket, PostgreSQL

- Built full-stack e-commerce platform with real-time chat, product management, admin controls, and secure payment processing.
- Implemented responsive UI, improving checkout completion rate and mobile user engagement.

Multi-Marketplace Product Aggregator | Django, AWS Lambda, Stripe, REST APIs

- Aggregated products from Amazon, eBay, and Craigslist with intelligent filtering and smart search functionality.
- Implemented Stripe subscription system with user dashboards, analytics, and admin controls for recurring revenue tracking.

Visitor Analytics & Tracking System | Django, JavaScript, PostgreSQL

- Developed visitor tracking and clickstream analytics modules.
 - Delivered interactive visualizations for data-driven decision-making.
-

Master of Computer Applications (MCA) | Khwaja Moinuddin Chishti Language University, Lucknow – Aug 2024

Bachelor of Computer Applications (BCA) | Khwaja Moinuddin Chishti Language University, Lucknow – Aug 2022
