MOHD FAIZ KHAN

Software Engineer | Python/Django | Full-Stack Developer

Lucknow, UP | +91 9682972462 | faizkhanofficial32@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Highly motivated Software Engineer focused on Python, specialized in building efficient applications with Django, REST APIs, and automation, while integrating basic AI/ML logic and clean codebase. Deliver logical problem-solving for scalable, production-ready systems, ensuring well-documented code and cross-functional collaboration to contribute high-quality features with minimal ramp up requirements.

Availability: Immediate joiner – Ready to start from day one

SKILLS

Languages: Python, JavaScript, HTML, CSS.
Frameworks: Django, Django Channels, Bootstrap.
APIs & AI: REST APIs, AI/ML concepts, Stripe API.
Databases: PostgreSQL, SQLite, MongoDB.
Automation & Scraping: Selenium, BS4, Drission Page.
Tools: Git, AWS Lambda, Python Fundamentals.

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER | RAFTAL TECHNOLOGIES, LUCKNOW – JUNE 2025 – DECEMBER 2025

- Develop and maintain Python-based applications using Django, integrating AI/ML features while writing clean, efficient, and well-documented code for clients.
- Build cross-platform desktop apps with Python (Tkinter, PyQt) utilizing logical problem-solving.
- Collaborate with senior devs on code reviews and hands-on guidance, accelerating cross-functional productivity.

ASSISTANT SOFTWARE ENGINEER | RAFTAL TECHNOLOGIES, LUCKNOW – JULY 2024 – JUNE 2025

- Designed and maintained Python web apps, improving UI responsiveness by 35% and optimizing backend logical processing.
- Automated internal workflows using Python and Selenium, reducing manual effort by 40% and ensuring efficient code execution.
- Collaborated in Agile sprints to deliver Python features aligned with goals and business objectives.

JUNIOR DEVELOPER INTERN | RAFTAL TECHNOLOGIES, LUCKNOW – JANUARY 2024 – JULY 2024

- Developed backend services using Python and Django; built responsive front-end components with HTML/CSS
- Created web automation scripts using Selenium for testing and data extraction, improving QA cycle time

PROJECTS

E-Commerce Platform with Real-Time Chat | Django, Django Channels, WebSocket, PostgreSQL

- Built full-stack e-commerce platform with real-time chat, product management, admin controls, and secure payment processing.
- Implemented responsive UI, improving checkout completion rate and mobile user engagement.

Multi-Marketplace Product Aggregator | Django, AWS Lambda, Stripe, REST APIs

- Aggregated products from Amazon, eBay, and Craigslist with intelligent filtering and smart search functionality.
- Implemented Stripe subscription system with user dashboards, analytics, and admin controls for recurring revenue tracking.

Visitor Analytics & Tracking System | Django, JavaScript, PostgreSQL

- Developed visitor tracking and clickstream analytics modules.
- Delivered interactive visualizations for data-driven decision-making.

Master of Computer Applications (MCA) | Khwaja Moinuddin Chishti Language University, Lucknow – Aug 2024

Bachelor of Computer Applications (BCA) | Khwaja Moinuddin Chishti Language University, Lucknow – Aug 2022
